

PLPM - Flap valve with switch

Duct system galvanized

Flap valve PLPM with micro switch is made of black antistatic plastic, resistance: $\leq 106 \text{ Ohm/cm}$, equipped with a self-closing spring cap. The flap valve is mounted on the pipe with PICO (short) coupling and fits flexible hoses, connected through HOPO hose coupling. A: Indicates the pipe diameter. B: Indicates diameter HOPO hose coupling.

PLPM - Flap valve with switch
