

HOSR/-XL - Hose reel long hose

Hose reels and hose trolleys

Hose reel HOSR is supplied with antistatic vacuum hose. The spring return mechanism, fitted with a ratchet, allows the hose to be held in the correct position. Automatic flow control valve which is activated by the hose. Microswitch for start/stop of vacuum unit. Wall mounting is standard but can be ordered for ceiling mounting. For other hose lengths, contact us.

The hose reel is a user-friendly and ergonomic product that provides a more efficient cleaning time, as it is always close to hand and fast-started. In addition to being extremely quiet, the construction keeps the hose clean and whole longer, since it rarely, or never, needs to be in contact with the floor. Connection to pipe system is $\varnothing 50$. Painted in RAL 9022. The antistatic hose has a value of $104 \Omega/m$. Ceiling mounting available. The mounting option must be specified when ordering, since a hose reel that is prepared for another mounting can not be modified. Max. length of hanging hose: HOSR standard: 1,5 meter HOSR-XL (10/12 m): 2,5 meter

HOSR - Hose reel

HOSR-XL - Hose reel with 10/12 meter hose for greater reach.

Art.no	Ø (mm)	Hose length m	Measurement mm	Weight (kg)
